In his book called "Science Speaks" (Moody Press, 1958, Revised 1976) Peter Stoner, Professor Emeritus of Science at Westmont College in Santa Barbara, California, calculated the probability of one Person fulfilling just 48 prophecies to be: 1 in 10,000,000,000,000,000,000,000,000,000, 000,000,000,000,000,000,000,000,000,000,000,000,000,000,000, 000,000,000,000, 000,000,000,000,000,000,000, 000,000,000,000,000,000,000. With the odds being so great for just 48 prophecies, one must wonder what the odds of one Person fulfilling 108 prophecies are.

Ø Fulfilled prophecy is indisputable proof that:

1) Jesus was the Messiah
2) God knows the end from the beginning
3) God is in control, and
4) The Bible is the Word of God.

ü These prophecies were recorded by many different men who lived over a period of about 1000 years from Moses to Malachi.

ü These different writers confirmed what each other said.

ü All of these prophecies were fulfilled in about 33 years.
