

The Divine Order of the Camp

The Tabernacle was surrounded on three sides by the Levites and on the east (the front) by the priests. The Tabernacle faced the rising sun (the east); Moses, Aaron and his sons were on the east. While this photograph depicts the Tabernacle with a pitched roof, the general consensus among Bible scholars is that the roof was flat.

Let it be noted the Levites and priests were to pitch around the Tabernacle 'that there be no wrath upon the congregation of the children of Israel' (Num. 1:53). This unbroken line of consecrated ministers between God and the nation held back God's wrath. *It is the presence of God's people today standing between God's wrath and the*

world that is restraining His judgment. When the church is removed by rapture, the great tribulation will break upon the world.

Three million plus Israelites were encamped around the Tabernacle occupying approximately 12 square miles.
