The Judgment of God is falling on America –The Answer!

By Bill Keller

The judgment of God is falling, it is time to seize the opportunity! **Only** the spiritually dead or those who simply deny the existence of God **can't** see that what this nation is facing is the beginning of God's judgment for our sins and wickedness. I actually laugh each time I hear some "genius" on TV talking about when this current economic crisis will be over and things will be "back to normal." I have news for the experts; things are NEVER going to be "back to normal," and the **ONLY** hope we have to see anything but the total destruction of life as we have known it, is to get on our knees, repent, and turn back to God and His Truth.

THERE IS NO OTHER ANSWER!

Recently, Pastor David Wilkerson of the Times Square Church, author of "The Cross and the Switchblade," and founder of Teen Challenge, warned the readers of his blog about an "imminent catastrophe." Wilkerson is one of God's prophetic voices in these last days, and what God has told him is confirmation of what I have been telling the Liveprayer family and the nation for the past 3 years.

There are others who are now starting to speak up on the fact that what this nation is experiencing is much more than simply an economic crisis. Daily now, I am getting emails from people around the world, confirming all that I have been getting ridiculed for stating in the media the past several years. As the days, weeks, and months go by, as things progressively get worse and not better, as it finally becomes obvious that the politicians have **NO ANSWERS**, I believe in my heart that God's people will wake up and regular people who have no faith will start to listen. I pray daily that enough of them will open their hearts, that a real move of God's Spirit will be unleashed upon this land.

Sadly, President Obama is so consumed by the spirit of the anti-Christ (note I did **NOT** say, nor do I believe for a second, he is the anti-Christ), leading this nation further from God and His Truth, that he is too blinded by power and spiritually bankrupt to see what is really happening to our nation. While this man who had never even run a lemonade stand in his life bankrupts the treasury with his foolish schemes, more people each day suffer. If he had **ANY** fear of God, rather than advancing his pro-death policies, supporting the radical homosexual movement, and siding with the enemies of Israel, he would be in sackcloth and ashes calling this nation to prayer and fasting, to repentance, and to turn back to God!!!

My friend, there will be no leadership from Washington. I refuse to sit back in silence and watch this nation destroyed under the wrath of God while it can still be avoided. This is the time and now is the moment for action. Through the Jonah Project, I have shared with you an aggressive and proactive plan to mobilize God's people as we take our stand for Christ in these last days. There is no more time to sit back in silence, play games, be distracted by the temporary pleasures of this world while the nation sinks into the spiritual abyss and is destroyed.

Listen to me carefully, the destruction of this land and life as we know it is at hand whether you understand it or not!!!

It is sad to see the so-called Christian leaders of our day still playing their games, still more concerned with the survival of their kingdoms than God's Kingdom, still worried with how to raise money instead of how to lead the lost to faith in Jesus Christ. Spineless, gutless wonders like Joel Osteen have the audacity to smile and tell people everything is going to be OK and they can prosper even in this down economy. The prosperity pimps on Christian TV are still selling their perverted money appeals harder than ever, while the judgment of God is falling on this land and hurting people need a message of faith, not where to send their love gift.

My friend, the hour is at hand. I believe that like Nineveh, we still have the opportunity to repent, turn back to God and His Truth, and be spared His continued judgment and wrath on our land. I also firmly believe that if we

don't turn back to God, His wrath and judgment will continue to be poured out on this nation for our sins and wickedness and life as we know it will cease to exist. How long did we think we could keep killing 4,000 innocent babies a day? How long did we think we could pervert God's Holy Institutions of marriage and family? How long did we think we could side with the enemies of Israel? How long did we think we could worship the false God's and idols of this world? How long did we think we could spit in the face of God before His mercy and patience ran out???

This message today is a simple wake up call to all who have been sleeping. You need to forward it to every person you know. Pastors need to start preaching on the fact that we are living under God's judgment and now is the time for the church to rise up and be the church. We no longer have the luxury of simply being a form of entertainment. It is time to mobilize the troops and send every man, woman, and child to battle stations. **THIS IS NOT A DRILL!!!**

Several years ago, right before God began to unleash His judgment on this nation thru the economy, the Lord led me to launch the Jonah Project. Most dismissed it at the time, but in hindsight, it was God trying to prepare His people for what was to come. Take a few minutes and go to the Jonah Project at, www.liveprayer.com/jonah. There is a 7-8 min. video that will play when you get there which lays out the vision of the Jonah Project. Again, as you will see, it was God preparing His people for action as He began to unleash His judgment on our nation. Pray, SEE the vision, get signed up, and be part of this last days remnant who is going to call this nation to repentance and to turn back to God and His Truth.

I know many will be upset by this message today. I have heard from many over the months telling me to stop talking about the economy and God's judgment and "be positive." I suggest that you go listen to Osteen or any of the prosperity ["preachers"] who only care about your money. I suggest you listen to the so called "Christian leaders" who are out there building their own kingdoms while our nation is experiencing the judgment of God. Stick your head in the sand like an ostrich and believe the lies from President Obama and the politicians that they will fix all of this. God is going to hold me accountable one day; I have NO CHOICE but to sound the trumpet and warn the people what is happening no matter how unpleasant it may be or how many people it upsets.

Any pastor, priest, or ministry leader that is not preaching about the fact God is judging our nation for its sins and wickedness is committing spiritual malpractice. This is the time the body of Christ must come together as one if we are to save our land from destruction. This is one of the greatest evangelism opportunities in human history to see an incredible harvest of souls as people are hurting, looking for hope and answers, hope and answers that are only found in Jesus Christ. All who know Jesus have been commanded, not asked, to share Christ with the lost and hurting in the world.

The judgment of God is falling on our nation as I type these words. I pray today that the Lord will stir you, wake you up, and that you will take your place on the front lines with me as we take our stand for Christ. Satan has unleashed all of his weapons and will do everything he can to insure God's judgment continues until this nation is destroyed. We can either sit back in silence and watch it happen, or step up and fight. I will fight with my last breath because I believe the soul of our nation is worth fighting for as are the souls of the lost who are heading to an eternity in hell without Jesus. Will you fight with me for our national and the lost?

Thank You for praying, and taking your stand for Christ with me. Together we will see this nation turn back to God and HIS Truth for the glory of God!
