

"TIME TO GET SERIOUS"

By Bobby Blanton

You and I are living in extraordinary times. Geopolitically, financially, spiritually, anyway you want to measure it, we are watching our nation and a world steer rapidly out of control. You can feel the strong delusion! Evil and sin really are celebrated and called good and those who share a testimony of Truth are mocked and called evil. So many people, so many lives going down the wrong road! And where do they find direction that would put them on the right path? The devil has done a number on the testimony of the church, apostasy leads the way and destruction is their end! The Bible describes our days like this... "on the earth distress of nations, with perplexity" and I believe that the roaring in the sea of global events will only accelerate in the months ahead. Jesus and the prophets said there would be many signs that we would see that would usher in the "end of the age." When I look around I see everything He said I should see. Here are just a few...

The State of Israel and the Jewish people remain in the crosshairs and epicenter of not only the Apocalyptic Islamic nations that seek to destroy her but of the entire International body that seeks to divide her!

Syria is in the eye of the storm and Damascus is at the center of world dispute. Just this week 20 Middle Eastern nations representing 350,000 soldiers, 20,000 tanks, 2,450 warplanes and 460 military helicopters are massing in northern Saudi Arabia for a military exercise that is being called "Northern Thunder." This will be the largest military exercise in the history of the region, and it comes amid rumors that Saudi Arabia and Turkey are preparing for a massive ground invasion of Syria.

Needless to say, the Russians are quite alarmed by all of this and Prime Minister Medvedev issued a warning that this could all spiral out of control and spark a new world war. He also declared that the strained relationship between his country and the United States could be described as "a new Cold War."

There have been enormous upheavals in the Global financial markets and there is growing concern of a complete collapse that is producing more efforts for a one world economy.

The desire to create a one world religion from the Vatican continues and after a 1,000 year split – a historical reconciliation meeting between Pope Francis and the Russian orthodox patriarch took place this week.

Powerful earthquakes continue to strike in various places all over the globe.

There is so much more I could say about the leadership of our President Barack Obama and the great moral downfall of the USA but what is clearly evident is that time is at a tipping point. "This generation shall not pass away, til all be fulfilled." As Hal Lindsey said earlier this week, "you don't have to be a meteorologist to see the storms that are bearing down on us!"

Jesus predicted these events. Ezekiel saw it coming. Isaiah told us all about it!

It is time to get serious! If you have not been paying attention up until now, you need to start! The Lord is Coming Soon! Are you ready?

Until He Comes,
Bobby Blanton
