

# Death To America

By Patrick Wyett

You've seen the slogan, "Death to America," chanted from the halls of Venezuela to the shores of North Korea and many places in between. You remember the images. Angry mobs burning US flags and the accompanying anti-US signs in English. "Death to America" has become so common in the Muslim-controlled areas of the Middle East that it's practically the region's anthem. For some people, it's the only three English words that they know.

It's also understood that the crowds are echoing the sentiments of the rulers of those regions and countries mentioned above. Oftentimes such protests are government sponsored, most of the time by the selfsame governments who are receiving US tax dollars in aid. We realize that these people would destroy us if they could. The thing is, for the most part, they can't. They lack the ability. Not the desire, just the ability.

But what about those who have both the desire *and* the ability?

Russia and China certainly qualify and no doubt have plans and contingencies. Theirs has been a waiting game of proper timing and opportunity. Up until now (I have thoughts on Ukraine for a future article), there's been no immediate need to act overtly because a far more destructive force has been accomplishing their goals for them without firing a shot, weakening us morally, culturally, economically and militarily; destroying us from within.

Notwithstanding that there are real threats from foreign adversaries—the greatest danger to our sovereignty, rule of law, heritage, Christian faith and lives is our own government.

Sad to say, many in our population are dumbed-down, brainwashed and oblivious to the fate that awaits. This especially includes my brothers and sisters, many self-professing Christians. If you have an aversion to unpleasant reality, save yourself some anguish and stop reading right now.

I'm sure there's something mindless on television to further anesthetize your seared conscience.

Almost two thousand years ago, the apostle Paul described our modern day with astounding accuracy:

"This know also, that in the last days perilous times shall come. For men shall be lovers of their own selves, covetous, boasters, proud, blasphemers, disobedient to parents, unthankful, unholy, Without natural affection, trucebreakers, false accusers, incontinent, fierce, despisers of those that are good, Traitors, heady, high-minded, lovers of pleasures more than lovers of God" (2 Timothy 3:1-4).

These verses describe a vast majority of our population, both citizens and elected officials alike. What kind of laws, regulations, foreign and domestic policy would you expect from such people? That's right, exactly what we're getting.

"Our Constitution was made only for a moral and religious people. It is wholly inadequate to the government of any other." —John Adams, 2nd President of the United States.

The morality which President Adams was referring to was, and is, biblical morality. The religious people he spoke of are Christians. There was no other religion of prominence or influence at our founding and thereafter.

We aren't a moral people, not anymore, and the religion that's predominately practiced today is one of self-indulgence under the guise of atheism, secular humanism, various forms of Marxism, Islam and overwhelming, uncaring apathy. Allow me to put it all together for you, for the hour is later than what most might think.

Biblical morality has been the glue that held our nation together. It defined us as a people. We were blessed and exceptional solely because of it.

"America is great because she is good. If America ceases to be good, America will cease to be great." —Alexis de Tocqueville

Alexis de Tocqueville's observation has unfortunately been proven true. Having discarded biblical standards, we now suffer moral chaos and the resultant descent into all manner of depravation.

"The fool who has not sense to discriminate between what is good and what is bad is well nigh as dangerous as the man who does discriminate and yet chooses the bad." —Theodore Roosevelt

The insidious, destructive power of sin has been unleashed on us, with the assent, or at least indifference of most of us.

"Righteousness exalteth a nation: but sin is a reproach (shame or disgrace) to any people" (Proverbs 14:34).

I am ashamed for this nation and what we've allowed ourselves to become. We've squandered our Christian heritage and God's resultant blessings. This nation openly defies the Almighty's ordained morality and declared sovereignty. What's to be, what's coming to pass, isn't God's will that it should happen, it's the natural consequences of the choices we've made and continue to make.

As it stands, there is no repentance, nor turning away from sin. Instead many promote *tolerance* of evil, and more than that, immersion into it. Satan's rebellion against God has been fully joined by the United States. Behold now, a reckoning; judgment is at hand.

By our wicked actions, we make the biblically inevitable, imminent. Judge for yourself:

The very land we live on is defiled by the blood of nearly 60,000,000 aborted babies. Every precious one cries out for God's vengeance. Drugs are being legalized even as guns are being banned. Mandated acceptance of homosexuality is declared through legislative, executive and judicial decrees.

You have no constitutional right to freedom of religion if you aren't allowed to practice your faith in both word and action. What do I mean? When a Christian who opposes the abomination of homosexuality is told, by law, that they must conduct business with homosexuals in a way that violates their principles and conscience, then God-given, God-chosen morality is being openly criminalized.

"Let no man deceive you with vain words: for because of these things cometh the wrath of God upon the children of disobedience. Be not ye therefore partakers with them" (Ephesians 5:6-7).

I'm going to get a little personal here. Did you watch the Rose Bowl and its pre-advertised homosexual festivities? How about the demonic, perverse performances at the Grammys or Ellen Degenerate's hosting of the Oscars?

Why would you bring this filth into your house, making yourself willing partakers of open godlessness? It's the same with listening to, watching and supporting the vile likes of Miley Cyrus, Lady Gaga, Beyoncé, Macklemore and Jay-Z.

You probably know that Disney openly supports homosexuality. If you didn't, now you do. Walt Disney himself would be appalled. Are you? Friend, you can't answer "Yes" if you're buying their products or planning a vacation to Disney World.

Boycotting evil is a tough choice for many. If only we loved Jesus more than we love the world. I'm not saying that boycotts will bankrupt Disney or Beyoncé; there aren't enough people of principle to make such a stand. No, I'm more concerned about the bankruptcy of morals by "Christians" who knowingly, financially support those who mock God.

As a true Christian you are both the enemy of Satan and those under his power and influence. As a Christian in name only, a pretender, you are of this world.

"Also I say unto you, 'Whosoever shall confess me before men, him shall the Son of man also confess before the angels of God: But he that denieth me before men shall be denied before the angels of God'" (Luke 12:8-9).

For years now, the IRS has been unlawfully targeting Christian and conservative groups, even individuals like filmmaker, Dinesh D'Souza. At least he's still breathing, unlike Andrew Breitbart and several others who've died under suspicious circumstances.

You also know by now that the Department of Homeland Security (DHS) has a list of potential terrorists featuring the usual suspects: Christians, pro-gun, pro-life, those opposed to abortion and homosexuality, even military veterans. Congratulations, you're probably on the list.

Contrast this with real domestic terrorists like Bill Ayers, leader of the Weather Underground, which was responsible for 72 bombings in the US during the late sixties and early seventies. Here's one of his quotes, "Kill all the rich people. Break up their cars and apartments. Bring the revolution home; kill your parents, that's where it's really at."

Is this lunatic in prison? No, he's a recently retired college professor. He's also a mentor to Barry Soetoro, aka Barack Hussein Obama, and actually launched Barry's political career with a fundraiser for him, kindred spirits. More recently, Ayers stated, "I get up every morning thinking today, I'm gonna make a difference. Today, I'm gonna end capitalism."

To these America-haters, Christianity and capitalism are fully linked. Both must be destroyed. Plans and preparations for martial law are widely reported and documented. FEMA camps, and worse, for dissenters, massive ammo purchases for domestic (population control) use, an emphasis on population control training for law enforcement and military, even live-fire training targets portraying the old, children and pregnant women.

Couple these actions with the National Security Agency (NSA) openly spying on you -- your phone calls, what you buy, where you buy it, where you work, where your kids attend school, where you live, web pages visited, emails, and more. Do you sense a comprehensive plan being realized?

Don't look to Congress for help; the majority of them are complicit. Democrats are helping Barry cover-up the IRS scandal, Benghazi, Fast and Furious and multitudes of illegal Executive Orders. A few Republicans put on a show of squawking and investigating, ultimately doing nothing. Party leadership reins them in, maintaining the status quo.

But it's not just the Feds. From gun bans and threatened confiscations in Connecticut to New York Governor Mario Cuomo telling pro-gun, pro-life and those who oppose the homosexual agenda that there's no place in New York for them. Evil is flourishing at all levels.

Godless indoctrination continues in the public education system with the even worse Common Core curriculum being forced into the mix. And higher education? Muslims are firmly entrenching themselves alongside Marxists in academia just as they have at the highest levels of government, including the White House.

Are you aware that 30,000 Syrians are to be brought to the US, refugees from the war that we started covertly there? No, not the Christians who are being barbarically slaughtered—more Muslims. That's the strategy of this administration, bringing Muslims in legally and illegally to aid in the destruction of our culture. They're not here to assimilate, they're here to annihilate.

Tennessee State Representative Rick Womick, an airline pilot, has stated he was ordered to fly planeloads of undocumented Muslims into this country from overseas. Normal immigration procedures were bypassed, those incoming being met, given money and transported to parts unknown.

Barry's policy is a continuation from Bill Clinton who imported Bosnian Muslims as "refugees" into the US during the Bosnia-Serbian war in the nineties. Let's not forget the continued, government-protected invasion from Mexico. Large influxes of foreigners dilute an indigenous people. In our current situation, it's not just cultural suicide, its cultural homicide.

Death to America.

On the economic battlefield, the devastation is widespread but by no means complete. An anonymous senior official in Barry's administration has admitted that the economic strategy is to kill the dollar. Bill Ayers must be proud. Implementation ranges from insane deficit spending to death by over-regulation. As example of the latter, the ongoing war against the coal industry is shutting down power plants, which in turn drives up energy costs. The last lead smelting plant in the US was forced out of business by crippling new regulations. Shutdown was the goal. (Lead is a primary component in bullet production.)

Current and ongoing US foreign policy is, in a nutshell, poised to destabilize the world and move us toward the desired, satanic goal of a one-world government. This is best accomplished by betraying our allies, specifically Israel, and supporting our enemies, especially Muslims.

Barry, through Secretary of State Kerry, is furiously trying to force Israel into a land-for-peace deal with the Muslim terrorists known as "Palestinians" through all manner of threats and coercion. These Arab squatters have no claim to Israeli land; there never has been a nation of Palestine.

As the history of the last 1400 years has proven, there is no peace with Muslims, treaty or no treaty. We bring divine wrath on our nation by being party to dividing the land that God gave to the Jewish people exclusively.

"I will gather all nations and bring them down to the Valley of Jehoshaphat. There I will put them on trial for what they did to my inheritance, my people Israel, because they scattered my people among the nations and divided up my land" (Joel 3:2).

Some sort of framework to this "peace deal" is to be in place by late April. Beware such an eventuality.

"Let the nations be roused; let them advance into the Valley of Jehoshaphat, for there I will sit to judge all the nations on every side. Swing the sickle, for the harvest is ripe. Come, trample the grapes, for the winepress is full and the vats overflow—so great is their wickedness!" (Joel 3:12-13).

Unless the goal is America's destruction, does it make sense in these dangerous times to systematically destroy our own armed forces? Perhaps Barry doesn't trust our service members to carry out future orders for martial law. Maybe that's why he's brought great numbers of foreign troops into our country for "training." Regardless, he doesn't seem to want us to be able to defend ourselves in an all-out war like the one he tried to start in Syria with the Russians, and now in the Ukraine. Why do I say this?

From day one of his presidency, Barry has been unilaterally reducing our nuclear warhead numbers with the goal of complete nuclear disarmament. He has cancelled next generation nuclear weapons development even as China and Russia forge ahead with more advanced systems. Barry's done the same with conventional weapons programs.

Our technology advantage is disappearing and in some areas, we are now behind. I found it astounding that a Fox News contributor, retired Army Lt. Colonel Ralph Peters, actually stated on air that US Aircraft Carriers, while great at projecting US naval power, are helpless against Chinese "carrier-killer" missiles, a point which I've addressed in a prior article. Russia has the same capabilities. In a war with either or both, our surface naval forces would be decimated.

Barry's other efforts to destroy good order and morale include allowing open homosexuals to serve, placing women in combat roles, accommodating Muslims by allowing beards to be worn by those in uniform, reducing military pay, benefits and housing allowances and plans to reduce the size of the Army to pre-WWII levels, even as he's trying to start WWIII.

The Marines, Navy and Air Force have been and continue to be scaled back as well. There is no other conclusion; the military is being gutted. Adding salt to the backstabbed, gaping wound, we now have Muslim chaplains in the Army and Air Force.

Death to America.

A point to consider: When WWII started, technology was a different animal. It took months and years for great powers to conquer one another. By today's standards, it was a plodding process.

We had the time to gear up our manufacturing capacity and train a nation for war, even as we absorbed dramatic, initial losses.

In an all-out war today, conquest isn't measured in months and years. It's measured in minutes. We don't have the time to gear up for WWIII. A properly planned, precisely executed surprise nuclear or EMP attack would be initiated and over for most of us in 30 to 60 minutes.

Our troops are tired and demoralized by years of meaningless deployments in Iraq and Afghanistan. They are dying and being maimed solely for the evil agenda of destroying this nation. We have no goals, no plan for victory.

There are other casualties as well. Over two hundred high-ranking officers have been purged by Barry's Administration because they either refused treasonous orders or were otherwise resistant to the Marxist/Muslim coup against the Constitution that we're currently witnessing from the White House.

Those lost represent our best and most capable leadership. Lower ranking officers and enlisted have been weeded out as well, along with many others who've voluntarily resigned or not reenlisted because of what they see happening.

What do we do? What we should've been doing all along, contend for the faith.

“Beloved, when I gave all diligence to write unto you of the common salvation, it was needful for me to write unto you, and exhort you that ye should earnestly contend for the faith which was once delivered unto the saints” (Jude 1:3).

Satan and his minions may appear to be unstoppable. I assure you, this is not the case.

And I saw heaven opened, and behold a white horse; and he that sat upon him was called Faithful and True and in righteousness he doth judge and make war. His eyes were as a flame of fire, and on his head were many crowns; and he had a name written, that no man knew, but he himself.

And he was clothed with a vesture dipped in blood: and his name is called The Word of God.

And the armies which were in heaven followed him upon white horses, clothed in fine linen, white and clean.

And out of his mouth goeth a sharp sword, that with it he should smite the nations: and he shall rule them with a rod of iron: and he treadeth the winepress of the fierceness and wrath of Almighty God. And he hath on his vesture and on his thigh a name written, King of Kings, and Lord of Lords” (Revelation 19 11:16).

Satan and his demonic followers will be utterly annihilated. This is how it ends for all who reject God, all those who reject Jesus as Lord and Savior. That which is transpiring may be beyond your immediate ability to alter, but it’s not beyond your capability to resist, just as our founders did, as the early Christians did and as many are doing around the world, right now..

***“I have fought a good fight, I have finished my course, I have kept the faith”***  
(2 Timothy 4:7).

There is no better epitaph.
